

Host a Food Fair Kick-off Watch Party

Weather permitting, host an in person group (maximum of 10) outside on your patio, deck, driveway or back yard to watch the food fair kick-off zoom **Sunday, April 18th at 4:00**. Help each other maneuver the online bidding application and generate excitement for the event.

To host you will need:

- Outdoor space
- Power source for multiple plugs
- TV you can move and set up in your space
- Computer/tablet/phone to log in to Zoom and connect to your TV
- Correct cords to connect device to TV (from laptop use an HDMI cable, tablets and phones may need a special adaptor to connect to an HDMI cable.)
- Wifi connection to your internet

Be sure to test your device capabilities before deciding to host. If you don't think your wifi is strong enough, you might be surprised. I was able to connect with a very low strength wifi out to my detached garage 25' from my router.

Next, let church friends know about your party and invite them to come. Elaine would like to announce on the website and Facebook that you are hosting. **Please save a space or two for someone new.** I'll give you names of some to invite. All should bring their own devices to access the BiddingOwl site to purchase events and bid on auction items. Also let them know if they need to bring their own chair. **At this time suggest guests bring their own beverage or snack and encourage mask wearing and social distancing for covid protocols.**

If you decide to host, please notify Elaine Imlau via this **email: food_fair@ucdsm.org** with the following information:

- **Host Name**
- **Address**
- **Phone #**

Thanks for generating excitement for our fundraising event!
